

UTEX INDUSTRIES, INC.

EPI Energy Products | A UTEX® COMPANY

Superior Expendables Designed & Manufactured in the USA by UTEX®

WELL SERVICE TOOLS

## UTEX® X-TENDED LIFE SYSTEM: **WELL SERVICE TOOLS**

### REDUCE DOWNTIME / INCREASE RUN TIME WHEN YOU ADD UTEX WELL SERVICE TOOLS TO YOUR WORKFLOW

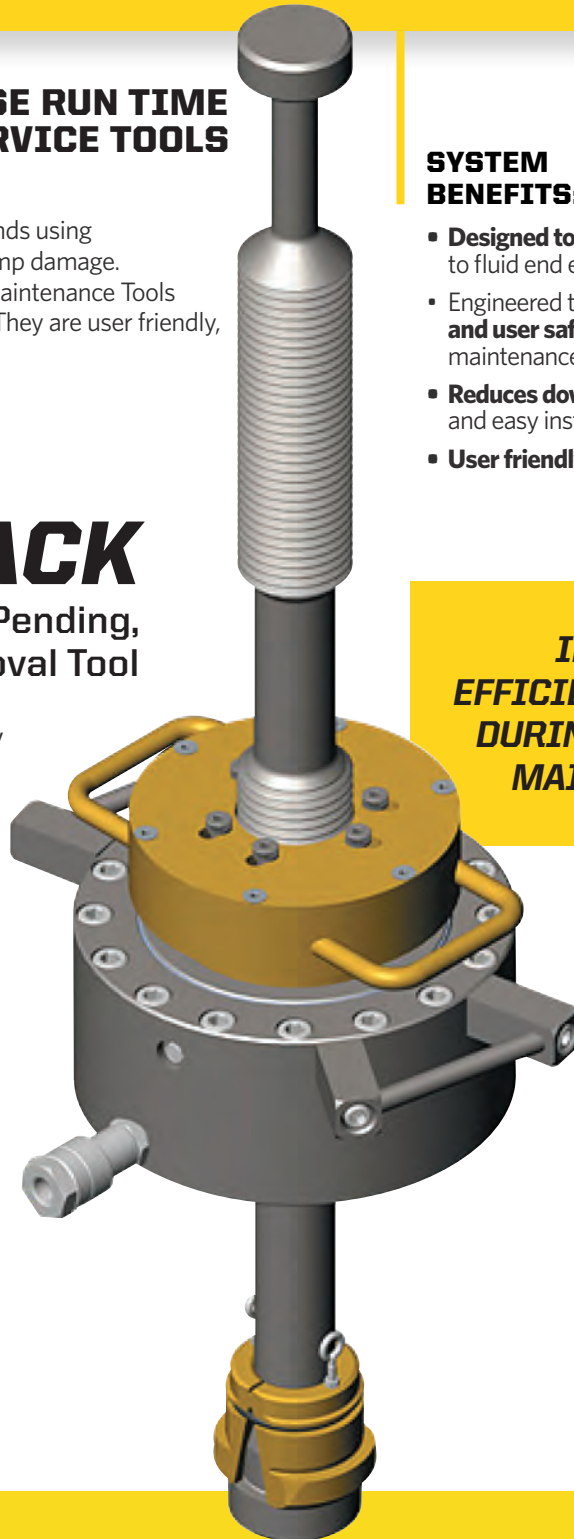

Downtime is lost productivity. Banging away on fluid ends using the wrong tool creates potential crew injury and/or pump damage.

**Save time and protect your investment.** XL Fluid Ends Maintenance Tools are engineered for easy use, speed of task, and safety. They are user friendly, purpose built, and stronger than competitive tools.

## **THE SUPER JACK**

Patent-Pending,  
Hydraulic Valve Seat Removal Tool

- The fastest seat removal tool in the industry **(10 seats in 10 minutes)**
- Features a hydraulic cylinder that the duckbill and stem assembly can pass through the hydraulic cylinder, **eliminating the need to lift the jack over the stem**
- Longer stroking hydraulic cylinder and no helical threads on the stem **eliminates potential thread damage**
- Patent-pending ratcheting nut **quickly positions for rapid seat removal**

### SYSTEM BENEFITS:

- **Designed to prevent damage** to fluid end expendables
- Engineered to **improve efficiency and user safety** during fluid end maintenance
- **Reduces downtime** by allowing quick and easy installation and removal
- **User friendly, wear resistant**

**IMPROVE  
EFFICIENCY & SAFETY  
DURING FLUID END  
MAINTENANCE**

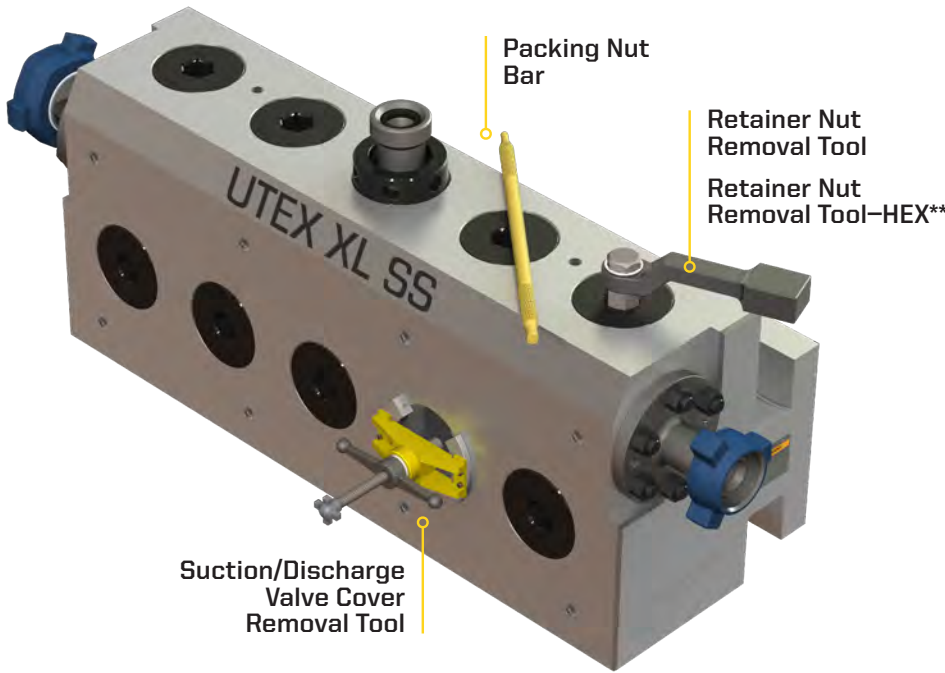

UTEX INDUSTRIES, INC.
