UTEX INDUSTRIES, INC.

Energy Products | A UTEX® COMPANY

Superior Expendables Designed & Manufactured in the USA by UTEX®

UTEX® Makes Pump Maintenance Quick And Cost-Effective.

UTEX XL SYSTEM: XLH X-TENDED LIFE HEADER RING

Engineered for Longer Run Time

Our ability to design and manufacture engineered seals and components has earned UTEX the reputation of being innovative leaders in the worldwide market.

Applications include:

- Fracturing with high rate 100 mesh sand and ceramic proppant
- Hydrocarbon-based fluids
- Cementing
- CO²

LOWER YOUR COST OF OWNERSHIP WITH THE COMPLETE UTEX SYSTEM.

Ask your UTEX Sales Rep how you can reduce your cost of ownership even more when you deploy UTEX X-Tended Life Fluid Ends and expendables as **a complete system.**

Knowing that equipment is only part of the equation, UTEX also offers innovative, fluid ends maintenance tools designed to be user-friendly, tough, easier and more efficient to use than competitive alternatives.

UTEX ADVANTAGES:

- **Unmatched customer service**
- **Solution-focused** products and services
- **EPI Supply Shield on-site expendables inventory management** unit designed to help maximize uptime, manage district expenses
- **Customer loyalty incentives** created to make using the complete UTEX system even more cost-effective

FLUID END TRAINING CLASS

Do you have a sea of green hats on your wellsite? An expertly trained crew member can minimize downtime, reduce premature failure, and increase the readiness of the frac fleet. Contact your local UTEX or EPI Technical Sales Representative today to **schedule a complimentary, on-site fluid end training class.**
